Wetteren, Belgium – May 15th, 2013

Comments on the significant events and transactions since January 1, 2013

No important events have occurred since January 1, 2013 with a significant impact on the company's results and financial structure.

Outlook

The sold volumes of preforms and bottles for the first four months of 2013 have increased by more than 10% compared to the same period of 2012. Besides an increase in West, Central and East Europe, there was also a positive evolution of the sales in South Europe. The growth is the result of a further diversification of customers and products.

For the full year 2013, Resilux confirms the outlook announced in the press release of March 18th, 2013. Under normal circumstances, Resilux expects to realise in 2013 an operational cashflow (ebitda) at least in line with 2012.

The implementation of the capital expenditures budget for 2013 is according to plan.
