SHARE BUY-BACK

Wetteren, Belgium – 29 October 2019

On 23 October 2019, the Board of Directors of Resilux NV adopted a share buy-back programme, whereby a discretionary mandate was given to an intermediary to purchase during closed and open periods own shares on behalf of Resilux NV for a maximum amount of 2,500,000€ and a maximum number of 20,000 shares. In addition and under certain conditions, block transactions could be considered during open periods.

The buy-back programme has a term of 6 months, starting on 1 November 2019 and can be discontinued at any time.

The purpose of the buy-back programme is to reduce the company's excess cash and to decrease the company's share capital through the destruction of all or part of the company's own shares acquired within the frame of the buy-back programme. The company is authorized to decide not to destruct all own shares acquired and to reserve a part of these shares in view of the possible elaboration of a management incentive plan.

The share buy-back programme is launched pursuant to the authorisation granted by the Extraordinary General Meeting of Shareholders of 17 May 2019 to the Board of Directors to buy back, under certain conditions, own shares.

In accordance to article 622 §1 of the Belgian Company Code, the Board of Directors of Resilux NV decided to suspend in continuance any entitlement to dividend payment related to the own shares that the company would hold and to cancel such entitlement for the period that such own shares are held by the company. Consequently, in relation to own shares that are held by the company, no dividend payment will be executed and all voting rights are suspended.

During the term of the programme, the company will, at regular intervals and in accordance with the applicable regulations, inform the market of the shares that have been bought back.
